Camp To Belong MA, one of Sibling Connections' programs, is a summer camp for siblings separated by foster care.

About Sibling Connections:

All too often, children who enter the foster care system are separated from each other. In fact, 75% of children in foster care don't get to live with their brothers and sisters. Sibling Connections is working to help siblings get together-- through summer camp, year-round organized events, and programs that let brothers and sisters living in different households stay connected and close. YOU can have that great feeling of making a difference -- by supporting opportunities for siblings in foster care to create happy, shared memories all year long!

Just \$500 sponsors a week of camp for a sibling in foster care.
